

Customer Journey Map

Date	1 July 2026
Team ID	
Project Name	Human Development Index (HDI) Predictor – A Comprehensive Measure of Well-Being
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Data Entry	Stage 2 Prediction	Stage 3 Result & Decision
Actions <i>What does the customer do?</i>	• Opens the HDI Predictor application. • Reads project information. • Expected Years of Schooling, and GNI per Capita.	• Clicks the Predict HDI button. • Waits for the machine learning model to process the input. • Receives the predicted HDI category.	• Reviews the prediction result. • Compares results with expected values. • Uses the prediction for research or policy analysis.
Touchpoint <i>What part of the service do they interact with?</i>	• Streamlit web application. • Input text fields. • Project description.	• Prediction button. • Machine Learning prediction engine. • Backend processing.	• Prediction output screen. • Displayed HDI category. • Final application interface.

Customer Thought <i>What is the customer thinking?</i>	• "Is the application easy to use?" • "What values should I enter?" • "Will the prediction be accurate?"	• "The prediction should be quick." • "I hope the model gives reliable results." • "How does the model classify the country?"	• "The prediction is useful." • "I can use this result for analysis." • "This helps in understanding development status."
Customer Feeling <i>What is the customer feeling?</i>	• Curious • Interested • Hopeful	• Excited • Confident • Expectant	• Satisfied • Informed • Confident in decision-making

Process Ownership <i>Who is in the lead on this?</i>	• User • Streamlit User Interface • Input Validation Module	• Machine Learning Model • Prediction Engine • Backend Processing	• Result Display Module • User • Decision Support System
Opportunities <i>How can we improve this stage?</i>	• Add country selection dropdown. • Provide input validation messages. • Include example values.	• Show prediction confidence percentage. • Improve model accuracy using more data. • Reduce prediction time.	• Add charts and graphs. • Provide recommendations for improving HDI. • Allow report download (PDF/CSV).
